### 2. LEARNING OUTCOMES

#### Learning Outcomes

The aim of the course's content is to acquaint students with the complex legal regulations nascent in the tourist industry. The course aims at making students understand the government role in enacting regulations concerning the tourism sector. In particular, for students to perceive the importance of respecting the law regulations in the tourism industry, to be aware of the appropriate requirements for building a tourism business, the regulations and restrictions for entrepreneurship actions in the particular field, as well as the penalties in the event of infraction of the existing legal framework.

Upon successful completion of the course students will be able to:

- Understand the legal framework for the operation of tourism businesses.
- Identify the necessary requirements for an operating license of any type of tourism business.
- Enquire into and manage the necessary administrative and legal documents for the operation of a tourism business.
- Recognize the operation regulations and restriction of tourism businesses according to the legal framework in force.
